Dear Parent

COVID-19: Government Guidance for Educational Settings: From the Principal

Some of you may have been concerned this week about the spread and associated risks of Coronavirus and you will have seen in the news that some schools have taken a very cautious approach. I want to assure parents and students that I have been ensuring that we are following Public Health guidance throughout this week, including having sought specific advice for the College from local Health Protection officials.

Each day, the government updates its advice which can be found [here](#) and I would encourage you to read it if you have not yet done so.

In addition, Public Health England has produced a helpful poster which I would ask you to take note of and discuss with your family. Please [click here](#) to view the poster.

Please do not hesitate to contact the College should you be in any way concerned about these matters.

Yours sincerely

Matthew Waterfield
Principal
