

A-Level Chemistry Preparation:

September Preparation Task

1. Complete a poster on the history of atomic structure. You may use [this factsheet](#) to help you. This is due for your first lesson in September.
2. Download these PowerPoints ([atomic structure PP](#), [Basic electron structures PP](#)) read and make notes in preparation for your lessons on atomic structure.
3. Download the "[maths for chemists](#)" factsheet. Read and make notes. Complete the questions at the end of the worksheet.
4. Have a quick look through [the specification](#) to get a feel of what you'll be covering this year in AS Chemistry. You will need to bring a ring binder to lessons that is organised by each topic. (time to buy some file dividers!) Have a look at the "AS topics" folder to see the order that we teach.
5. Print [the periodic table](#) and make sure a copy stays in your ring binder!
- 6.
