11 July 2023

Dear [RecipientTitle] [RecipientSurname]

Further to my email on 16 June regarding modern foreign language learning, I would like to share with you the exciting opportunity that students may now choose to study Latin as a second language in Year 9. For any students interested in this opportunity, this would mean they would choose to change from one of the modern foreign languages that they are currently studying, to Latin. For example, if your child currently studies French and Spanish, they could swap either of these languages to Latin. Any students choosing this option will continue to study two languages in Year 9 and will continue with at least one of these to GCSE.

Latin is a very logical and structured language, and it helps students to develop clear, organised thinking. It requires a steady and committed approach, which will develop qualities that will make them an excellent learner. The course will also help them to understand about life in the ancient Roman world. There is an exciting storyline through which they will learn how the Romans lived, what they believed, how they were educated and how they entertained themselves.

If [StudentForename] would like to take up this opportunity to study Latin alongside one of their existing languages, please complete [this form](#) by **8:00am Monday 17 July**.

Yours sincerely

Mrs R Hall
Vice Principal – Quality of Education
