Dear [RecipientTitle] [RecipientSurname]

We want our schools to be great places to work and to study and to support that we want to ensure that we hear from families and students to ensure that we are doing the best we can for those we serve. We firmly believe that children thrive when the school, family and child all work together, we often refer to this as the tripod. When students are committed to making the most of all of the opportunities available to them, to their academic and personal growth supported by strong relationships between school and home, they flourish, and it is our ambition to see the flourishing of all students in our school community.

We would therefore like to invite feedback from both you and your child through the parent and carer and student surveys linked below. We ask for your support in assisting your child to access the survey and for all responses to be provided by 4:00pm on **Friday 2 February 2024**.
