

EMMANUEL COLLEGE
Emmanuel Schools Foundation

18 October 2025

Dear Parents and Carers

As you now know, Ofsted carried out a two-day graded inspection of Emmanuel College on Tuesday 15 and Wednesday 16 October.

As you can imagine, this was a busy few days for our staff team and I am grateful to you for your patience during this week. In due course, I will be able to share with you the conclusions of the Ofsted team, and you will be able to read their findings about the school in the report that they will publish in a few weeks' time. We found the inspectors to be fair and supportive and believe that Emmanuel will be a stronger school because of the experience. We feel confident that parents and students will be reassured by the outcomes when they are published. I am delighted to be able to report that students were fantastic during the inspection and, once the report is published, I shall be able to share with you some of the wonderful comments that inspectors shared with me about your children.

Next week will also see the publication of public examination results for the summer 2024 exams and, having had early access to these this week, I am pleased to confirm that as expected our students have once again done exceptionally well relative to their peers nationally. Again, I look forward to sharing the detail with you in due course.

Emmanuel College is a special place to work and study and this week has been a very strong reminder of that. Thank you for your ongoing support and partnership in the precious privilege of preparing the next generation for their adult lives.

With many thanks

Mr M Waterfield
Principal
