

EMMANUEL COLLEGE
Emmanuel Schools Foundation

30 April 2026

Dear [RecipientTitle] [RecipientSurname]

Rugby Union at Emmanuel College

As part of the England Rugby Football Unions drive to ensure awareness of head injuries in the contact game, they have developed some 'Headcase' learning resources to educate coaches, players, parents and carers on the current signs, symptoms and protocols for concussion.

For the 2026-2027 season, all coaches, players, parents and carers are required to complete the RFU Headcase module regarding concussion. In the course you will learn what concussion is, how it looks and how it feels. You will also learn about prevention strategies, best practice concussion management and why it is important it is followed.

If your child plays competitive rugby at Emmanuel College, you and your child are required to complete the e-learning using the links below.

[Parents e-learning](#)

[Students e-learning](#)

Once you and your child have completed the course and you have received your certificate, please complete this [form](#) and forward us a copy of your certificates to sport@emmanuelctc.org.uk (use this link).

Any questions or queries please contact me in College.

Yours sincerely

Mr J Foster

Head of PE
