

Year 7 Technology Examination

The Technology exam will assess you on the knowledge gained in your three Technology rotations

The below table will detail which rotation you should be revising:

Please see the appropriate list below to help you revise for your examination

	Revision Activity	Resource to help with revision	Revised? ☒
Engineering	1. Source of polymer	Use your rotation booklets - which contains all of the information needed All lesson Powerpoints are on Teams- which you can refer to All knowledge organisers are on Teams- which you can refer to www.technologystudent.com is an excellent website which contains a lot of theory information	
	2. Types of polymers and their uses		
	3. How to draw a thermosetting and thermoforming polymer		
	4. Smart materials and their uses		
	5. Modern materials and their uses		
Paper and board	1. Measuring accurately		
	2. Different types of paper and board, their common uses and properties		
	3. Rendering neatly to make a product look realistic		
	4. Drawing accurately in isometric		
Textiles	1. Sources of fibres		
	2. Types of textiles and their uses		
	3. What is applique and how is it done		
	4. Writing a design specification		

Equipment needed

- Pen
- Pencil
- Ruler
- Colouring pencils
- Rubber
